Total Technical Marks: 70

Qualifying Percentage in Technical Criteria: 70%

Qualifying Marks: 49 (* also see exception section mentioned in this section)

Financial Evaluation Criteria: (Score = 30 marks)

9.	Financial Status	Price Formula The price quoted must be the lowest quoted any where in Pakistan in the previous twelve months. In case this is not done, the supplier is bound to refund the difference of the price to the procuring agency.	<u>Lowest Quoted Bid x 30</u> Your quoted bid	The importer or manufacturer shall be registered with Federal Board of Revenue (FBR), Islamabad. Certified Sales Tax and Income Tax registration certificates from FBR will be produced. Financial statement, duly audited & signed by an official of the firm, to be provided by the bidder.
			Eg: Lowest bid of a product is Rs. 100. Three products @ Rs. 100; Rs. 120 & Rs. 150 are quoted. Calculate as: 1) $\frac{100}{100} \times 30 = 30$ 2) $\frac{100}{120} \times 30 = 25$ 3) $\frac{100}{150} \times 30 = 20$	

The bidders achieving a minimum of **49 marks** out of 70 marks in the Technical Evaluation will be declared technically qualified. Financial bids of only technically qualified bidders will be opened publicly at the time to be announced by the Procuring Agency. The Financial Bids of technically dis-qualified bidders will be returned un-opened to the respective Bidders (see **EXCEPTION Section** below for exemption from achieving minimum qualifying marks and still be considered for bidding). After achieving the financial score from the remaining 30 marks, the two scores (technical + financial) shall be combined to identify the lowest evaluated bid (achieving the highest marks in combined evaluation).

Evaluation Methodology: Contract will be awarded to the firm which gets the maximum marks for the product/medicine and becomes the lowest evaluated bid in the Combined Evaluation calculated through the Merit Point Evaluation Methodology which puts greater emphasis on non-price factors such as high quality of the product, stringent certifications and the most efficient industrial processes etc. The following weightages will be given to the technical and financial scores:

Technical Score: 70 marks

Financial Score: 30 marks

Cancer-related drugs are life saving medicines and require very high quality. In order to achieve the said quality, Merit Point Evaluation Methodology will be used in evaluating the Technical and Financial bids to give more weightage to the technical score thereby emphasizing on factors relating to quality. The said Technical Score focuses on the process of manufacturing medicines with raw material source of excellent grade, good past performance with early supplies, provision of authentic bio-equivalence and cGMP certificates from globally renowned healthcare certification bodies validating such certificates on highly stringent standards, adoption of reference standard cold chain procedures for preservation of temperature-sensitive medicines and publication of trial studies in indexed journals of international repute etc. This method therefore encourages and incentivizes the firms to significantly improve their industrial processes and enhance their drug efficacy in order to get maximum marks in the Technical Evaluation to become the lowest evaluated bid.

NB: Ensuring the technical standards of the medicines being procured is of utmost importance. Outcome of treatment and lives of cancer patients depend on these technical standards. Therefore any attempt to misrepresent or falsify facts or any information, such as any alteration, addition or deletion of wordings in any part of the SBD, quoting trials for generic medicine that were conducted for the original molecule, attaching application for registration rather than actual registration certificate or GMP certificate or GMP/accreditation certificates for other drugs or manufacturing sites where the medicine was not manufactured and such like acts, falsification of information in any form shall lead to disqualification and black-listing of the concerned firm/vendor as a whole. Procurement/Purchase Committee reserves the right to inspect the Manufacturing Unit or cold chain/storage facilities.

Any litigation or frivolous complaints shall also lead to blacklisting of the firm/vendor for the current and future biddings.

***EXCEPTION:** In case of a class of medicine in which none of the medicines quoted fulfill the above technical criteria but is required for restoration of health of cancer patients, only in that case, the qualifying technical score will be lowered and medicine that has the highest ranking in the combined evaluation shall be selected. This clause is only for cases in which none of the required class of drug/medicine fulfills the technical qualification criteria.

PROPRIETARY ITEMS: Proprietary items/products shall be dealt with as per KPPRA Rules 2014. Negotiation will take place for these products. Manufacturer/importer has to supply an affidavit affirming that the said products are their sole proprietary items in Pakistan. Following is required for proprietary products:

- These firms shall provide a signed affidavit on Judicial stamp paper regarding their proprietary rights for the products mentioned by them.
- Certificate that their rates shall be valid till August 2018.
- Certificate that their rates are the lowest/equal to the lowest anywhere quoted in Pakistan in the last 12 months.
- Certificate regarding the final re-negotiated rate and/or any optional additional activity or tests to be provided free of cost by the firm.

UN-REGISTERED PRODUCTS: Any unregistered product required for restoration of health of cancer patient may be purchased (or imported through authorized supplier/dealer/firm) with special permission from MOH/DRAP on case to case/product-wise basis. In this case, the naming of the product in ANNEX-II (list of medicines required) or registration with MOH/DRAP is not necessary. The following rules shall apply for such products:

- These products should preferably be under the process of registration with MoH/DRAP.
- They must be legally imported into the country with permission/NOC from MoH/DRAP on compassionate grounds/ named patient basis.
- Firm must be registered with MoH/DRAP and FBR.
- No alternate registered equivalent drug (qualified by the Technical Committee) is available in Pakistan (in case of an unqualified registered drug, preference shall be given to qualified unregistered drug that fulfills the above criteria points).
