He also holds Preparatory workshops for Certified Healthcare Quality Professional courses. He is currently serving as Director Quality & Patient Safety and Joint Commission International Accreditation Lead at PKLI Lahore.

Umar Amjad

Director Quality & Patient Safety, PAF Islamabad

CHCQM, CPHQ, MBA, IHI Fellow

Experienced Healthcare Quality Professional with a demonstrated history of successfully achieving the Joint Commission International accreditation in the Hospital and Homecare settings. My recent experience of working with the Pakistan Medical & Dental Council (PMDC) in developing the national accreditation framework helped me to achieve an insight into governance and leadership: which is why I currently serve as the Director for Policy Board Secretariat KP. I have worked to develop accreditation standards and audited them in the leading MTIs in Peshawar which gives me an edge in providing consultation to any institute that wants to commission a quality department within their hospital.
